CAREER OBJECTIVE

Computer Science and Engineering student with a strong foundation in Python, SQL, PostgreSQL, GitHub, Docker, and Networking Fundamentals. Currently working as a **Prompt Engineer Intern at UptoSkills**, seeking an opportunity to contribute to software development while enhancing my technical and problem-solving skills.

EDUCATION

B.Tech in Computer Science & Engineering (Cyber Security)

2023–2027

Rajeev Gandhi Memorial College of Engineering and Technology, Nandyal

CGPA: 8.30/10

TECHNICAL SKILLS

Programming: Python, HTML

Database: SQL, PostgreSQL

Tools & Platforms: Git, GitHub, Docker, VS Code

INTERNSHIPS & EXPERIENCE

Prompt Engineer Intern | UptoSkills

Present

- Designed and optimized AI prompts to improve the accuracy, relevance, and consistency of Generative AI responses.
- Evaluated and refined AI outputs through iterative testing, enhancing response quality and user experience.
- Developed prompt-driven solutions for diverse use cases by applying prompt engineering best practices.
- Collaborated with cross-functional teams to document workflows and support the development of AI-powered applications.

PROJECTS

Detection of SQL Injection Attack Using Machine Learning

[LINK](#)

Technologies: Python, SQL, Scikit-learn

- Developed a machine learning model using the Random Forest algorithm to detect SQL Injection attacks.
- Trained and evaluated the model using Kaggle datasets containing normal and malicious SQL queries.
- Improved web application security by identifying malicious SQL queries with high accuracy

Resume Screening Agent

[LINK](#)

Technologies: Python, Generative AI, NLP, LLMs

- Developed an AI-powered Resume Screening Agent to automate resume analysis and candidate shortlisting.
- Extracted and analyzed candidate skills, education, experience, and certifications from resumes.
- Leveraged NLP and Large Language Models (LLMs) to match resumes with job descriptions and generate candidate insights.
- Automated resume ranking based on job-specific requirements, improving the efficiency of the screening process.

CERTIFICATIONS

- AWS Cloud Practitioner Certification – 2024
- Oracle Certified Professional (OCP) – 2025
- Oracle Certified Foundations Associate – 2025

ACHIEVEMENTS

-
- Participated in a 24-hour Hackathon.
- Participated in an 8-hour Hackathon.
- Successfully completed multiple technical certification programs.

LEADERSHIP & CAMPUS INVOLVEMENT

- Event Organizer – College Technical & Non-Technical Activities.
- Actively participated in technical workshops and coding events.
