Summary

Aspiring Frontend Developer and Data Science student with knowledge of HTML, CSS, JavaScript, Python, and web development tools. Seeking an opportunity to build responsive web applications and apply data-driven solutions to real-world problems.

Education

B.Tech in Computer Science and Engineering (Data Science) 2023 – 2027
Rajeev Gandhi Memorial College of Engineering and Technology, Nandyal CGPA: 8.00/10

Technical Skills

- **Programming Languages:** Python, C, JavaScript, SQL
- **Web Development:** HTML, CSS, React.js, Next.js
- **Libraries & Frameworks:** Pandas, NumPy, Scikit-learn, Matplotlib
- **Tools & Platforms:** Git, GitHub, Streamlit, VS Code, Figma
- **Core Concepts:** Machine Learning, Database Management Systems (DBMS)

Projects

- Food Stock Tracker** Live Project — 2026
- Developed a responsive web application to streamline inventory tracking, monitor real-time stock levels, and reduce food wastage.
 - Implemented complete CRUD functionality enabling users to seamlessly add, update, search, and delete food items through an intuitive dashboard.
- Employee Portal** Live Project — 2025
- Designed a centralized, responsive web platform to optimize corporate employee record management and data organization.
 - Integrated dynamic features for viewing, updating, and deleting employee details alongside secure client-side form validation.

Internship Experience

- AI & Prompt Engineering Intern** Ongoing
Swecha & Viswam AI 6 Months
- Contributing to Prompt Engineering for Telugu Large Language Models (LLMs).
 - Collaborating on Artificial Intelligence applications and Large Language Model (LLM) development projects.
 - Applying prompt optimization techniques and participating in model evaluation workflows.

Certifications

- **Oracle Certified Professional (OCP):** Validated expertise in enterprise cloud architecture and database applications — **2025**
- **UiPath Certified Professional:** Certified competency in building and managing robotic process automation workflows — **2026**

Achievements

- **Hackathon Execution:** Collaborated in both 24-hour and 8-hour rapid development sprints to prototype software solutions under strict deadlines.
- **Technical Engagement:** Maintained an active presence in technical workshops and peer coding challenges to build robust programming skills.
